

Class 4449

Convened 2/7/44 Graduated 4/28/44

Another good picture. All seated Administration & Instructor personnel Index is missing. Above the first two rows of standing students, spacing and row arrangements are so staggered it is difficult to identify by row. There appears to be 5 rows of Marines and 4 rows of White hats and WAVES. This is another photo with the class standing marked first. All the numbers index on the back, for identified picture written in from 10 to 42 is input by me 21 Jul.1990, on assumption these were arranged chronologically and omitted when typed in.
