

Class 4456

Picture Dated 18 Nov. 1944

Class # 56 is hard to work with. Student # 69 is indicated on Class standing but not shown on front of picture. The numbers on front of picture is not sequentially listed on back of picture and all the left row on back identification is missing. Class standing numbers are there but not picture identification. Only partial identification possible and that at great expense of time, with no certainty of correct identification. If our predecessors had any idea the problem they were creating by such sloppy work, would they have been more diligent? Picture mangled with holes.
